<https://www.linkedin.com/in/muhammadfirmannafis/> | Tangerang, Indonesia

I am a dedicated Information Systems student with extensive experience in the field, where I have developed strong technical and analytical skills. My background has equipped me with a solid foundation in information systems, including system analysis, data management, and software development. I am committed to leveraging my knowledge to drive effective solutions and support innovative projects, always aiming to stay updated with industry advancements and best practices.

Education

Universitas Pelita Harapan - Tangerang, Indonesia

Undergraduate of Information System | Employee Class

Aug 2024 – Present

- **Coursework Focus:** Specialized in Database Management, System Analysis and Design, Information Security, Data Analytics, Software Engineering, and Business Process Modeling. Acquired additional skills in Project Management, Cloud Computing, and ERP Systems.
- **Projects:**
 - Website Development:** Designed and developed a fully functional website with an interactive user interface, focusing on usability and responsiveness.
 - Mobile Application Development:** Created a simple mobile application with basic features, ensuring compatibility across different devices and providing a smooth user experience.

Work Experience

PT. Paramadaksa Teknologi Nusantara (nexSOFT) - Tangerang, Indonesia

Data Specialist

Jun 2024 – May 2025

- Accurately entered, updated, and maintained large volumes of data in company databases, ensuring data integrity and minimizing errors.
- Performed data verification and validation processes to ensure accuracy and completeness of records.
- Organized and managed electronic files, consistently maintaining database efficiency for easy data retrieval.
- Collaborated with team members to meet data entry deadlines, contributing to smooth workflow and operational efficiency.
- Utilized software tools effectively to enhance data entry speed and accuracy, supporting various projects and data reporting tasks.

Kalananti by Ruangguru - Tangerang, Indonesia

Text-Coding Teacher

Nov 2022 – Oct 2023

- Created comprehensive, accessible teaching materials aligned with curriculum goals to enhance student learning and engagement.
- Conducted classes effectively, managing student engagement, promoting interactive discussions, and ensuring comprehension of core concepts.
- Implemented regular assessments to monitor student progress, providing constructive feedback and adjusting teaching methods as needed.
- Worked closely with colleagues to coordinate lesson plans, share best practices, and address individual student needs.
- Ensured smooth operation of virtual learning platforms, troubleshooting technical issues and managing resources to optimize the learning experience.
- Actively participated in team meetings to discuss progress, exchange insights, and strategize on educational improvements.

Badan Pusat Statistik - Tangerang, Indonesia

Petugas Pendataan Lapangan

Sep 2022 – Nov 2022

- Conducted accurate and thorough field data documentation, ensuring reliability and completeness of collected data.
- Executed preventive maintenance according to schedules, including oil changes, air filter replacements, and lubrication.
- Identified and selected suitable respondents according to study criteria to ensure data relevance and accuracy.
- Collaborated with team members to align on objectives, share insights, and maintain efficient workflows throughout data collection.

AKRI - Jakarta, Indonesia

Server Security | Management Server

Aug 2019 – Jan 2022

- Ensured the safety and stability of server systems by performing regular security checks, troubleshooting, and implementing security protocols.
- Conducted regular server upgrades and optimizations, enhancing performance and minimizing downtime for end users.
- Developed and designed engaging games, from concept to final product, ensuring functionality, creativity, and user satisfaction.

Project Experience

Portfolio & Projects

Github

- <https://github.com/runnrobbot>

A collection of various application, website, and data analytics projects. Showcases both individual and collaborative works using technologies such as Python, JavaScript, React, and more. Each project is documented with code explanations and feature highlights.

Portofolio

- <https://darkorchid-parrot-238211.hostingersite.com/>

A personal portfolio website presenting profile, skills, and selected project samples. Built with a modern, responsive design and easy navigation to provide an optimal user experience.

Skills, Project Experience & Other

- **Soft Skill :** Leadership; Communication; Problem Solving; Adaptability; Analytical Thinking; Teamwork; Attention to Detail

- **Hard Skill :**

Programming Languages: Python, Java, JavaScript, C#, C++, React

Database Management: MySQL, Firebase, MongoDB
